

- 
- A tracked mine action vehicle, primarily orange and white, is shown in operation. It is equipped with a large, rotating drum-like attachment that is churning up a large cloud of brown dust and soil. The vehicle has a white cab and a large orange protective structure over the drum. It is on a gravelly surface with a line of trees in the background.

ABOUT US:

ALFA RAZMINIRANJE d.o.o Niš was founded in 2015 in Niš, Serbia. The company was established as part of the parent company that was established in Croatia in 2013. Our management team has more than 20 years of experience gained in the private and military sectors.

FIELD OF EXPERIENCE:

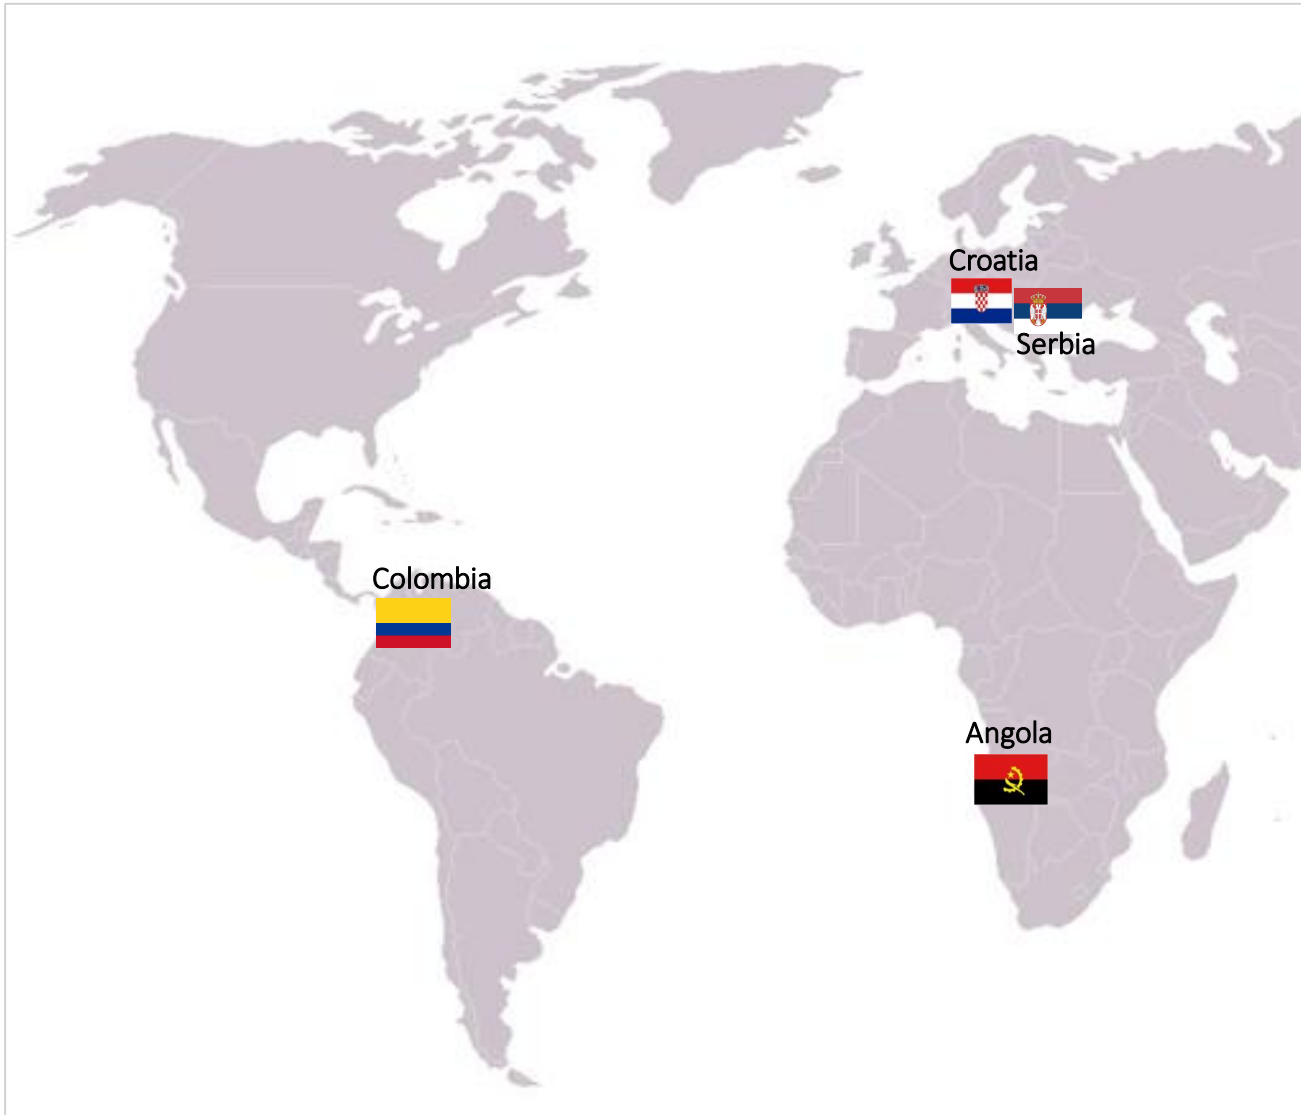

Mentoring, Training, Demining, EOD/IEOD, Mine Awareness, Finance, Human Resources or Procurement etc.

- Humanitarian demining – planning, organizing, deployment, execution, supervising, quality assurance, underwater survey. Training in BAC, manual mine clearance, mechanical clearance, MDD, vehicle mounted mine detection systems.
- EOD – EOD/IEOD level 4 qualified, planning, organizing, deployment, execution, supervising, quality assurance, quality control training.
- CIEDD - planning, organizing, deployment, execution, quality assurance, quality control.

EXPERISENS IN NUMBERS:

- Cleared Area – 23,779.526 m²
- Mine Clearance – 12,177.651 m²
- Technical Survey – 773.052 m²

Global Presence

In addition, Alpha has collaborated with various supervision companies around the world

MINE ACTION SERVICES

Manual Demining & BAC

- Advanced technological resources
- Fully IMAS compatible
- SOPs – Standard Operation Procedures
- Suitable and advanced detectors
- Full PPE and professionalism

Position	Quantity
Operational Manager	2
Project Manager	6
Field Manager	6
Team Leaders	12
Deminers	150
GIS / Topographer	4

MINE ACTION SERVICES

Mechanical Demining:

Whenever conditions allow, we start by using the mechanical equipment that is always preferred, enabling faster progress over large areas and greatly reducing personal risk.

Name	Quantity	Size	Type	Capacity (sq m/day)	Country of origin
VF-001	1	Medium	Flail/Tiller	20.000	Germany/Croatia
VF-100	3	Heavy	Flail/Tiller	20.000	Germany/Croatia
MV-10	2	Medium	Flail/Tiller	20.000	Croatia
Božena 5	1	Medium	Flail	12.000	Slovakia

MINE ACTION SERVICES

Underwater Demining & UXO:

- Survey
- Quality Assurance and Control
- Land mine and UXO clearance

Notably, surveys sometimes indicate a presence of ERW in aquatic environments, and you'll be glad to know that Alfa have a team of navy-trained divers to deal with such threats. Using specialized equipment, we can secure marine areas as well as rivers and lakes. Our ROV operators can even work in the deep sea. So, no matter where mines are found, Alfa will clear them for you.

Mine Detection Dogs (MDD)

Turn key – K9 unit establishment projects

MDD:

Specially trained dogs from our Dog Unit are used in many projects to pinpoint mines & buried UXOs. They can be used either separately or as Quality Assurance for other methods.

Types of work dogs

- Mine detection dogs
- Explosive detection dogs
- Search and Rescue dogs
- Patrol dogs
- Tracking dogs
- Gourd dogs

EXPLOSIVE SUBSTANCES

Fields:

- Purchase & Transport of explosive substances
- Use of explosive substances
- Recycling of explosive substances
- Neutralization and destruction of explosive substances

GIS SERVICES

With ALFA, you will always have ample data on which to base your decisions and reporting

- ALFA's GIS department provides real-time monitoring of all our projects and offers a number of services on a standalone basis.
- We can deploy a fleet of aircraft and use scanners and cameras paired with GPS to produce high-resolution aerial photography to an indexed high-resolution picture with a geographical accuracy down to 10mm, maps and elevations models for establishing and maintaining databases.
- Facilities for mounting of a wide range of geological survey equipment and other devices are also available.

MINE ACTION AND EXPLOSIVE DISPOSAL CONSULTING

ALFA staff is highly experienced in helping clients to establish high results in the field of Mine Action and Explosive Disposal.

Our staff are former senior officers in the Croatian Defense Forces and Special Police elite units. They have the technical skills and field-proven expertise to respond rapidly to specific client needs and anticipate threats.

Our services include:

- Security surveys and consulting
- Risk assessment for strategic sites
- Training – EOD and IEOD

Selected Projects - 2014

Year	No.	Project Name	Type of Project	Squer meter (m ²)
2014	1	The way through the railway : Zagreb-Sisak-Novska	Demining	40,523
	2	The forest region in šume . Part 1	Demining	16,646
	3	The forest region in šume . Part 2	Demining	9,490
	4	The entire MSP in the area of Gunja Municipality	Demining	1,377
	5	The Settlement area of Blinjski Kut and Gornje Komarevo	Demining	33,190
	6	The forrest region in G.J.Kotar-Stari Gaj	Demining	10,544
	7	The north area of the villages Prokljan u naselju Sonković	Demining	30,327
